About the Book.....

The significance of past never diminishes, either in effect or substance. To forget this moot point becomes suicidal sometimes. A minute observation of the past and accumulated experiences help us in shaping our present. The positive and compendious conclusions drawn from the past become our pioneer in charting new ways and teach us to rectify our remedies. Our present is, thus, beautified. Where there is beauty, attraction cannot be negated. It is in this way that the foundation of a concrete future is further solidified. Aspirations turn into realities. This is a realistic reflection. If the past is forgotten by marginalizing this realism, the truth of past surfaces as a path strewn with pebbles. If we preserve and cherish these pebbles of the past and make correct use of them, they become the linchpin of an edifice called success. Thus, the intricacies of our path become effortless and our destination gets more and more intelligible.

Kiran Prakashan Pvt. Ltd., which has been at your service for decades and helping you with the multitude of relevant offerings, has made a meaningful effort to put together these invaluable and very useful pebbles in the form of a book, titled **Kiran's SSC REASONING Chapterwise &Typewise Solved Papers**. **(Latest Revised & Enlarged Edition)**

It is an undeniable truth that the continuous motion of the past gives birth to change. Change gets inevitability. These changes bring coherence to the changed circumstances and fulfil the exact needs of the present. We reach our destinations only by striking coordination with these changes, lest we should find ourselves at the last row in this age of competition. The destination will be left as something impertinent. Our esteemed readers must be well aware of the changes introduced by the Staff Selection Commission (SSC) in the selection process for different posts. **Kiran Prakashan** has been keeping you updated with all the relevant information related to these very changes. **According to students, teachers and coaching directors demand this book is changed and arranged by Topicwise/Typewise. Kiran's SSC REASONING Chapterwise & Typewise Solved Papers** is another example of the commitment we feel towards our readers, imparting completeness in their search for a better and secure future.

The book before you, **Kiran's SSC REASONING Chapterwise & Typewise Solved Papers**, has been based on the questions of Reasoning (General Intelligence) that have been asked in the various competitive examinations at the **Combined Graduate, 10+2 and Matriculation levels**. This book has been conceived as a holistic treatment and single solution to all the difficulties that a candidate encounters while appearing at the **CGL (Tier-I), 10+2 level, FCI, CPO, Delhi Police, Matric Level and other competitive examinations**. The **Think-Tank** of **Kiran Prakashan** has taken into account the needs and difficulties of candidates and made an attempt to simplify the subject matter by de-constructing every thread and each pattern. Not only have the questions asked in the different examinations conducted by the SSC **(year 2021)** have been compiled at one place, but also they have been compartmentalized topicwise/typewise and made easy to grasp and digest with the help of comprehensive explanations. This is a rare collection of **more than 13,000 questions** with their explanations. It wouldn't be bragging if we say, do master these questions and their explanations, you will find automatically find yourself at ease with most of what surfaces in form of examination questions. In other words, master this book sincerely; success will itself become the mistress.

This edition Kiran's SSC REASONING Chapterwise &Typewise Solved Papers has been parceled out into **26 Chapters**, each dealing with **Topicwise/Typewise** and comprising bulk of questions and explanations.

An attempt has been made to impart completeness to this work which you will find more and more indispensable, the more you get acquainted with it. Explanations to the questions serve in some way as highly directed study material. We have ensured not to bombard you with bulky study materials which sometimes prove futile if a candidate is facing severe crunch of time.

Johann Wolfgang von Goethe, considered the supreme genius of modern German literature, said once: "What is not started today is never finished tomorrow." Relating to what Goethe had to say, we are proud to have made the beginning of a start. And, that start is **Kiran's SSC REASONING Chapterwise &Typewise Solved Papers**, where facts have been consolidated and refined and presented in the easy-to-digest objective question format which have actually been already asked in the different levels and formats of competitive examinations. Scientifically it has been proved that you tend to remember anything for long if that has been asked from you and you found yourself in a testing situation. So, this book has been scientifically weaved on the principle of 'test to prepare.'

As we have inferred that SSC to a great extent follows the pattern of questions asked in Graduate Level now and then. The (FCI, CPO, Delhi Police), Matric Level and other competitive examinations held earlier.

In short, this unique compilation of **more than 13,000 questions** will serve you in more than one way. One distinctive trend in the SSC Questions of recent years has been giving weighted stress on such areas **Analogy or Similarlity, Symbols and Notations, Classification, Distance and Direction, Series, Coding - Decoding, Word Formation, Syllogism, Statement and Conclusions, Ranking/Arrangement, Finding the Missing Number, Figure Counting, Mirror & Water Images, Paper Cutting & Folding, Embedded Figure and Deviation of Figure etc.**. You will find more than sufficient questions and their explanations on these sections.

Last, but not the least, there is no shortcut to success. Only hard work and perseverance pays rich dividends in the long term. So it is desirable on your part to make the best out of this unique offering before you. Let us remind you that the questions you find in this **Topicwise/Typewise book** will not only help you prepare for the SSC examinations, they will equip you with the much required knowledge and insight in 'cracking' other examinations as well.

Hugh Nibley, the famous American author and Mormon apologist said: **"Only if you reach the boundary will the boundary recede before you. And if you don't, if you confine your efforts, the boundary will shrink to accommodate itself to your efforts. And you can only expand your capacities by working to the very limit."**

Our researchers have taken painstaking efforts in the direction of accommodating and expanding to the limit. The guiding principle has been to have an eye on whatever is significant, and when you do have such a microscopic eye, there is little that can be expected to have been ignored. So, here is our new, novel and unique offering to you, **Kiran's SSC REASONING Chapterwise & Typewise Solved Papers (Latest Revised & Enlarged Editions)**. You will find a scratch card for online test. This will help you prepare for the SSC online exam pattern. Read This **book**, incorporate and digest it to reach the limits of life. See to know what it is all about.

With the Best Wishes
