536.	Zoogeography	Study of geographic distribution of animals
537.	Zoology	Study of animals
538.	Zoonomy	Animal physiology
539.	Zoopathology	Study of animal diseases
540.	Zoophysics	Physics of animal bodies
541.	Zoophytology	Study of plant-like animals
542.	Zoophysiology	Study of physiology of animals
543.	Zootaxy	Science of classifying animals
544.	Zygology	Science of joining and fastening
545.	Zymurgy	Branch of chemistry dealing with brewing and distilling
546.	Zootechnics	Science of breeding animals

IX - LIST OF GRAPHY

Sr.	Words	Definition
1.	Acoustography	An imaging process that employs a sensor to convert ultrasound into an image in near real-time, analogous to an X-ray.
2.	Arteriography	Roentgenographic examination of arteries
3.	Angiography	Roentgenographic examination of blood vessels after injection of a radiopaque contrast medium; produces an angiogram
4.	Autography	Writing done with one's own hand.
5.	Autobiography	A biography of yourself
6.	Autoradiography	Producing a radiograph by means of the radiation emitted from the specimen being photographed
7.	Biography	An account of the series of events making up a person's life
8.	Bibliography	A list of writings with time and place of publication (Such as the writings of a single author or the works referred to in preparing a document etc.)
9.	Calligraphy	Beautiful handwriting
10.	Cacography	Poor handwriting
11.	Cardiography	Diagnostic procedure consisting of recording the activity of the heart electronically with a cardiograph (and producing a cardiogram)
12.	Chirography	Beautiful handwriting
13.	Cartography	The making of maps and charts
14.	Choreography	A notation used by choreographers
15.	Cholangiography	Roentgenographic examination of the bile ducts after a contrast medium has been injected
16.	Chorography	The systematic description and mapping of particular regions
17.	Cinematography	The act of making a film
18.	Chromatography	A process used for separating mixtures by virtue of differences in absorbency
19.	Cryptography	Act of writing in code or cipher
20.	Cosmography	A representation of the earth or the heavens
21.	Crystallography	The branch of science that studies the formation and structure of crystals
22.	Demography	The branch of sociology that studies the characteristics of human populations
23.	Epigraphy	The study of ancient inscriptions
24.	Encephalography	Roentgenography of the brain after spinal fluid has been replaced by a gas (usually oxygen); produces an encephalogram
25.	Ethnography	The branch of anthropology that provides scientific description of individual human societies
26.	Geography	Study of the earth's surface; includes people's responses to topography and climate and soil and vegetation.
27.	Hagiography	A biography that idealizes or idolizes the person (especially a person who is a saint)
28.	Holography	The Branch of optics that deals with the use of coherent light from a laser in order to make a hologram that can then be used to create a three dimensional image
29.	Historiography	The writing of history
30.	Hydrography	The science of the measurement and description and mapping of the surface waters of the earth with special reference to navigation

Sr.	Words	Definition
31.	Ideography	The use of ideograms in writing
32.	Iconography	The images and symbolic representations that are traditionally associated with a person or a subject.
33.	Lithography	The act of making a lithographic print
34.	Lexicography	The act of writing dictionaries
35.	Lymphography	Roentgenographic examination of lymph nodes and lymph vessels after injection of a radiopaque contrast medium; produces a lymph angiogram
36.	Mammography	A diagnostic procedure to detect breast tumors by the use of X rays
37.	Orography	The science of mountains
38.	Oceanography	The branch of science dealing with physical and biological aspects of the oceans
39.	Orthography	A method of representing the sounds of a language by written or printed symbols
40.	Paleography	The study of ancient forms of writing (and the deciphering of them)
41.	Paleogeography	The study of the geography of ancient times or ancient epochs
42.	Photography	The occupation of taking and printing photographs or making movies
43.	Planography	The process of printing from a surface on which the printing areas are not raised but are ink receptive (as opposed to ink repellent)
44.	Physiography	The study of physical features of the earth's surface
45.	Polarography	An electrochemical method or chemical analysis
46.	Radiography	Photography that uses other kinds of radiation than visible light
47.	Pornography	Creative activity (writing or pictures or films etc.) of no literary or artistic value other than to stimulate sexual desire.
48.	Roentgenography	Radiography that uses X rays to produce a roentgenogram
49.	Radiotelegraphy	The use of radio to send telegraphic messages (usually by Morse code)
50.	Seismography	The measurement of tremors and shocks and undulatory movement of earthquakes
51.	Stenography	The act or art of writing in shorthand
52.	Sonography	Using the reflections of high frequency sound waves to construct an image of a body organ (a sonogram); commonly used to observe fetal growth or study bodily organs
53.	Stratigraphy	The branch of geology that studies the arrangement and succession of strata
54.	Telephotography	Photography using a telephoto lens
55.	Telegraphy	Communicating at a distance by electric transmission over wire
56.	Tomography	(medicine) obtaining pictures of the interior of the body
57.	Thermography	Diagnostic technique using a thermograph to record the heat produced by different parts of the body; used to study blood flow and to detect tumors
58.	Typography	The craft of composing type and printing from it
59.	Ultrasonography	Using the reflections of high frequency sound waves to construct an image of a body organ (a sonogram); commonly used to observe fetal growth or study bodily organs
60.	Venography	Roentgenographic examination of veins
61.	Xerography	Forming an image by the action of light on a specially coated charged plate; the latent image is developed with powders that adhere only to electrically charged areas
62.	Xeroradiography	Radiography using X rays and xerographic (rather than roentgenographic) techniques

X- LIST OF GOVERNMENT

55.	Thaumatoatriy	Worship of miracles or wonders
56.	Zoolatriy	Excessive devotion to animals or pets

XII - LIST OF INSTRUMENTS

Sr.	Words	Definition
1.	Anemometer	Instrument for measuring wind velocity
2.	Areometer	instrument used for measuring specific gravity.
3.	Arthroscope	Instrument for examining interior of a joint
4.	Absorptiometer	Instrument for measuring solubility of gases in liquids
5.	Actinograph	Instrument used to calculate time of photographic exposure
6.	Alcoholometer	Instrument for measuring proportion of alcohol in solutions
7.	Alcavinometer	Instrument to measure strength of wine
8.	Algometer	Instrument for measuring sensitivity to pain
9.	Alkalimeter	Instrument for measuring strength of alkalines
10.	Actinometer	Instrument for measuring incident radiation
11.	Aerometer	Instrument for measuring weight or density of gas
12.	Altimeter	Instrument for measuring altitude
13.	Accelerometer	Instrument for measuring acceleration or vibrations
14.	Acetimeter	Instrument for measuring strength of vinegar
15.	Acidimeter	Instrument for measuring concentration of acids
16.	Audiometer	Instrument for measuring acuity of hearing
17.	Auriscopes	Instrument for examining the ear
18.	Auxanometer	Instrument for measuring growth of plants
19.	Auxometer	Instrument for measuring magnifying power
20.	Ammeter	Instrument for measuring electrical current
21.	Anemograph	Instrument for measuring pressure and velocity of wind
22.	Ballistocardiograph	Instrument for detecting body movements caused by heartbeat
23.	Barograph	Instrument for recording air pressure
24.	Bathythermograph	Instrument for recording water temperature as compared to depth
25.	Bolometer	Instrument for measuring radiant energy or infrared light
26.	Bronchoscope	Instrument for examining the windpipe
27.	Barometer	Instrument for measuring air pressure
28.	Bathymeter	Instrument for recording contours of deep oceans
29.	Calorimeter	Instrument for measuring absorbed or evolved heat
30.	Cathetometer	Instrument for measuring short vertical distances
31.	Chromatograph	Instrument for performing chromatographic separations
32.		Chromatoptometer Instrument measuring eyes' sensitivity to colour
33.	Chronometer	Instrument for measuring time
34.	Clinometer	Instrument used to measure slopes and elevations
35.	Ceilmeter	Instrument for measuring height of cloud ceiling above earth
36.	Colorimeter	Instrument for measuring and determining colour
37.	Ceraunograph	Instrument for recording thunder and lightning
38.	Chlorometer	Instrument for measuring amount of chlorine in a solution
39.	Cytometer	Instrument for counting cells
40.	Coercimeter	Instrument for measuring coercive force
41.	Colonoscope	Instrument for viewing the colon
42.	Chronoscope	Instrument for measuring very short time intervals
43.	Colposcope	Instrument for viewing the neck of the uterus
44.	Coronagraph	Instrument for viewing the corona of the sun

Sr.	Words	Definition
45.	Coulombmeter	Instrument for measuring electric charge
46.	Coulometer	Instrument measuring amount of substance released in electrolysis
47.	Craniometer	Instrument for measuring the skull
48.	Crescograph	Instrument for measuring the growth of plants
49.	Cryometer	Instrument for measuring low temperatures
50.	Cyclometer	Instrument for measuring revolutions of a wheel
51.	Cymograph	Instrument for tracing the outline of mouldings
52.	Cystoscope	Instrument for examining the bladder
53.	Cryoscope	Instruments for determining freezing points of substances
54.	Cyanometer	Instrument for measuring blueness of the sky or ocean
55.	Densitometer	Instrument for measuring optional or photographic density
56.	Diagraph	Instrument for enlarging or projecting drawings
57.	Dilatometer	Instrument for measuring expansion
58.	Decelerometer	Instrument for measuring deceleration
59.	Declinometer	Instrument for measuring magnetic declination
60.	Dendrometer	Instrument for measuring trees
61.	Diaphanometer	Instrument for measuring the transparency of air
62.	Dichroscope	Instrument for examining crystals for dichroism
63.	Diffractionmeter	Instrument for determining structure of crystal through light diffraction
64.	Densimeter	Instrument for measuring closeness of grain of a substance
65.	Dipleidoscope	Instrument for measuring moment when an object passes a meridian
66.	Diplograph	Instrument for writing two lines of text at once
67.	Dynamograph	Instrument for recording mechanical forces
68.	Dynamometer	Instrument for measuring mechanical force
69.	Dosimeter	Instrument for measuring dose of radiation
70.	Dromometer	Instrument for measuring speed
71.	Drosometer	Instrument for measuring dew
72.	Durometer	Instrument for measuring hardness of substances
73.	Ebullioscope	Instrument for measuring boiling point of liquids
74.	Electrodynamometer	Instrument for measuring electrical current
75.	Electroencephalograph	Instrument for measuring the brain's electrical impulses
76.	Electrograph	Instrument for recording electrical potential
77.	Electromyograph	Instrument for diagnosing neuromuscular disorders
78.	Electroretinograph	Instrument for measuring electrical activity in the retina
79.	Eidograph	Instrument for copying drawings
80.	Eudiometer	Instrument for measuring air purity
81.	Extensometer	Instrument for measuring deformation in object due to force applied
82.	Elatrometer	Instrument for measuring gaseous pressure
83.	Electrocardiograph	Instrument for recording unusual electrical fluctuations of the heart
84.	Evaporimeter	Instrument for measuring rate of evaporation
85.	Electroscope	Instrument for detecting electrical charges in the body
86.	Endosmometer	Instrument for measuring osmosis into a solution
87.	Epidiascope	Instrument for projecting images of objects
88.	Ergograph	Instrument for measuring and recording muscular work
89.	Ellipsograph	Instrument for describing ellipses
90.	Encephalograph	Instrument for recording brain images

Sr.	Words	Definition
91.	Endoscope	Instrument for visualizing interior of a hollow organ
92.	Ergograph	Instrument for measuring work performed
93.	Eriometer	Instrument for measuring very small diameters
94.	Fiberscope	Instrument using fibre-optics to examine inaccessible areas
95.	Fluorimeter	Instrument for measuring fluorescence
96.	Fluoroscope	Instrument using x-rays to examine internal structure of opaque object
97.	Flowmeter	Instrument for measuring properties of flowing liquids
98.	Focimeter	Instrument for measuring focal length of a lens
99.	Geothermometer	Instrument for measuring subterranean temperatures
100.	Galactometer	Instrument for measuring specific gravity of milk
101.	Gasometer	Instrument for holding and measuring gases
102.	Gastroscope	Instrument for examining of interior of the stomach
103.	Goniometer	Instrument for measuring angle s between faces
104.	Galvanometer	Instrument for measuring electrical current
105.	Gradiometer	Instrument for measuring gradient of a physical quantity
106.	Gyrograph	Instrument for counting a wheel's revolutions
107.	Harmonometer	Instrument measuring harmonic relations of sounds
108.	Heliograph	Instrument for measuring intensity of sunlight
109.	Heliameter	Instrument for measuring apparent diameter of the sun
110.	Hydrometer	Instrument for measuring specific gravity of liquids
111.	Hydroscope	Instrument for viewing under water
112.	Hydrotimeter	Instrument for measuring water hardness
113.	Hyetograph	Instrument for recording rainfall
114.	Hyetometer	Instrument for measuring rainfall
115.	Helioscope	Instrument for observing sun without injury to the eyes
116.	Haptometer	Instrument measuring sensitivity to touch
117.	Harmonograph	Instrument drawing curves representing vibrations
118.	Hemacytometer	Instrument for counting blood cells
119.	Hygrometer	Instrument for measuring air moisture
120.	Hypsometer	Instrument for measuring height of threes through triangulation
121.	Hippometer	Instrument to measure height of horses
122.	Hyetometrograph	Instrument for recording rainfall
123.	Hygrograph	Instrument for recording variations in atmospheric humidity
124.	Idiometer	Instrument for measuring motion of observer in relation to transit of the heavens
125.	Iconometer	Instrument for finding size of object by measuring its image
126.	Inclinometer	Instrument for measuring inclination to the horizontal of an axis
127.	Interferometer	Instrument for analysing spectra of light
128.	Katharometer	Instrument measuring change in composition of gases
129.	Kymograph	Instrument for recording fluid pressure
130.	Keraunograph	Instrument for recording distant thunderstorms
131.	Kinetoscope	Instrument for producing curves by combination of circular movements
132.	Keratometer	Instrument for measuring curvature of the cornea
133.	Katahermometer	Instrument for measuring the cooling power of air
134.	Koniscope	Instrument for measuring dust in air

Sr.	Words	Definition
135.	Labidometer	Instrument for measuring size of the head of a fetus
136.	Lucimeter	Instrument for measuring light intensity
137.	Lysimeter	Instrument for measuring percolation of water through soil
138.	Laryngoscope	Instrument for examining interior of the larynx
139.	Lanometer	Instrument for measuring quality of wool
140.	Leptometer	Instrument for measuring oil viscosity
141.	Loxodograph	Device used to record ship's travels
142.	Lactometer	Instrument for testing relative density of milk
143.	Laparoscope	Instrument for viewing interior of peritoneal cavity
144.	Magnetometer	Instrument for recording measurements of magnetic fields
145.	Meldometer	Instrument for measuring melting points of substances
146.	Megameter	Instrument for determining longitude by observing stars
147.	Megascope	Instrument for projecting an enlarged image
148.	Mekometer	Range-finder
149.	Magnetometer	Instrument for measuring intensity of magnetic fields
150.	Marigraph	Instrument for recording tide levels
151.	Mecometer	Instrument for measuring length
152.	Methanometer	Instrument for detecting presence of methane
153.	Microbarograph	Instrument for recording minute changes in atmospheric pressure
154.	Microcalorimeter	Instrument for measuring tiny quantities of heat
155.	Microseismometer	Instrument for measuring small or distant earthquakes
156.	Mileometer	Instrument for recording distance travelled in miles
157.	Milliammeter	Instrument for recording very small electrical currents
158.	Myograph	Instrument for recording muscular contractions
159.	Micrometer	Instrument for measuring very small distances
160.	Micronometer	Instrument for measuring short periods of time
161.	Microscope	Instrument for magnifying small objects
162.	Microseismograph	Instrument for recording small or distant earthquakes
163.	Nitrometer	Instrument for measuring nitrogen and its compounds
164.	Nephelometer	Instrument for measuring cloudiness
165.	Nephoscope	Instrument for observing direction and velocity of clouds
166.	Nephograph	Instrument for photographing clouds
167.	Oncometer	Instrument measuring change in size of internal organs
168.	Ohmmeter	Instrument for measuring electrical resistance
169.	Odograph	Odometer; instrument for measuring distance travelled
170.	Odontograph	Instrument for obtaining curves for gear-teeth
171.	Oenometer	Instrument for measuring alcoholic strength of wine
172.	Odometer	Instrument for measuring distance travelled
173.	Oleometer	Instrument for measuring amount of oil in a substance
174.	Ombrometer	Rain-gauge
175.	Oscilloscope	Instrument for detecting electrical fluctuations
176.	Osmometer	Instrument for measuring osmotic pressure
177.	Olfactometer	Instrument measuring intensity of odour of a substance
178.	Oncosimeter	Instrument measuring variations in density of molten metal
179.	Oometer	Instrument for measuring eggs
180.	Opacimeter	Instrument for measuring opacity
181.	Opeidoscope	Instrument for illustrating sound by means of light
182.	Ophthalmometer	Instrument for measuring the eye

Sr.	Words	Definition
183.	Opsimeter	Instrument for testing vision
184.	Optometer	Instrument for testing vision
185.	Ophthalmoscope	Instrument for viewing the interior of the eye
186.	Opisometer	Instrument for measuring curved lines
187.	Orchidmeter	Instrument for measuring the size of the testicles
188.	Oscillometer	Instrument for measuring ship's rollings
189.	Permeameter	Instrument for measuring permeability
190.	Phacometer	Instrument for measuring lenses
191.	Pharmacometer	Instrument for measuring drugs
192.	Pharyngoscope	Instrument for inspecting the pharynx
193.	Phonautograph	Instrument for recording sound vibrations
194.	Phonendoscope	Device which amplifies small sounds
195.	Phonometer	Instrument for measuring sound levels
196.	Phorometer	Instrument used to correct abnormalities in eye muscles
197.	Photometer	Instrument for measuring light intensity
198.	Pachymeter	Instrument for measuring small thicknesses
199.	Pantochronometer	Combined sundial and compass
200.	Pedometer	Instrument for measuring distance travelled on foot
201.	Platometer	Instrument for measuring area; planimeter
202.	Plegometer	Instrument for measuring the strength of a blow
203.	Pelvimeter	Instrument for measuring the pelvis
204.	Penetrometer	Instrument for measuring firmness or consistency of substance
205.	Photopolarimeter	Instrument for measuring intensity and polarization of reflected light
206.	Pyranometer	Instrument measuring solar radiation from the sky's whole hemisphere
207.	Pyrheliometer	Instrument for measuring heating effect of sun
208.	Pyrometer	Instrument for measuring very high temperatures
209.	Pyroscope	Instrument for measuring intensity of radiant heat
210.	Phototachometer	Instrument for measuring the speed of light
211.	Phototelegraph	Instrument for transmitting drawings telegraphically
212.	Phthongometer	Instrument measuring intensity of vowel sounds
213.	Pantograph	Instrument for coping drawing to a different scale
214.	Passimeter	Instrument for issuing automatic tickets
215.	Piezometer	Instrument for measuring pressure or compressibility
216.	Planigraph	Instrument for copying drawings at a different scale
217.	Planimeter	Instrument for measuring area of plane figures
218.	Plethysmograph	Instrument for measuring change in body part size due to blood flow
219.	Pluviograph	Self-registering rain gauge
220.	Pluviometer	Rain-meter
221.	Polygraph	Instrument for measuring small changes in pulse and respiration
222.	Porometer	Instrument for measuring degree of porosity
223.	Poroscope	Instrument for investigating porosity
224.	Potentiometer	Instrument for measuring electromotive forces
225.	Prisoptometer	Instrument for measuring degree of astigmatism
226.	Proctoscope	Instrument for examining the rectum
227.	Psophometer	Instrument measuring audible interference of electrical current
228.	Psychograph	Instrument that supposedly records spirit message

Sr.	Words	Definition
229.	Pneometer	Instrument that measures respiration
230.	Pneumatometer	Instrument for measuring quantity of air breathed
231.	Pneumograph	Instrument for measuring and recording respiration
232.	Polariscope	Instrument for detecting polarized light
233.	Psychrometer	Instrument for measuring air moisture or temperature
234.	Psychrometer	Instrument for measuring dryness of the atmosphere
235.	Pulsimeter	Instrument for measuring the pulse
236.	Pycnometer	Instrument for measuring specific gravity or density
237.	Pyknometer	Instrument for measuring specific gravities
238.	Qualimeter	Apparatus for measuring penetrating power of X-ray beams
239.	Quantometer	Instrument for measuring proportions of elements in metallic sample
240.	Quantometer	Instrument for measuring proportions of elements in metallic samples
241.	Riometer	Instrument for measuring absorbed cosmic radio waves
242.	Rotameter	Old instrument for measuring length of curved lines
243.	Rotameter	Instrument consisting of glass tube with free float for measuring liquid flow
244.	Rachimeter	Instrument for measuring the spine
245.	Radiometer	Instrument measuring radiation energy
246.	Radiocope	Instrument for viewing objects using x-rays
247.	Ratemeter	Instrument for measuring counting rate of electronic counters
248.	Recipiangle	Old instrument with two arms used for measuring angles
249.	Reflectometer	Instrument for measuring reflectance of radiant energy
250.	Radarscope	Instrument for detecting radar signals
251.	Radiogoniometer	Instrument for finding direction through radio signals
252.	Radiometeorograph	Instrument for measuring atmospheric conditions at high altitude
253.	Retinoscope	Instrument for measuring and viewing the retina
254.	Rhinoscope	Instrument for examining the nose
255.	Rhythmometer	Instrument for measuring speed of rhythms
256.	Solarimeter	Instrument for measuring solar radiation
257.	Sonograph	Instrument for recording and analysing sound
258.	Sepectrograph	Instrument for viewing a spectrum
259.	Spectroheliograph	Instrument for taking pictures of the sun
260.	Spectroheliokinematograph	Camera for taking pictures of the sun
261.	Spectroheliroscope	Instrument for viewing solar disc in light of a single wavelength
262.	Saccharimeter	Instrument for measuring amount of sugar in a solution
263.	Scotograph	Instrument for writing without seeing
264.	Scotoscope	Instrument for detecting objects in darkness
265.	Seismograph	Instrument for recording earthquakes
266.	Serimeter	Instrument for testing quality of silk
267.	Shuftiscope	Instrument used to explore interior of dysentery case
268.	Sideroscope	Instrument using magnets to detect presence of iron
269.	Sigmoidoscope	Instrument for examining the interior of the rectum and sigmoid colon
270.	Sillometer	Instrument measuring speed of ship
271.	Skiascope	Instrument for measuring eye's refraction form movement of shadows.
272.	Seismometer	Instrument for measuring earthquake intensity

Sr.	Words	Definition
273.	Spectroscope	Instrument for forming spectra by dispersing rays of light
274.	Speedometer	Instrument measuring curvature
275.	Sphygmograph	Instrument for recording pulse
276.	Sphygmomanometer	Instrument for measuring arterial blood pressure
277.	Sphygmometer	Instrument for measuring arterial blood pressure
278.	Sphyngoscope	Instrument for making arterial pulsations visible
279.	Salinometer	Instrument for measuring amount of salt in a solution
280.	Scintillometer	Instrument measuring scintillation of star
281.	Scintilloscope	Instrument for measuring gamma rays emitted by a radioactive body
282.	Scolimeter	Instrument measuring curvature
283.	Seismoscope	Instrument for detecting earthquakes
284.	Selenoscope	Instrument for viewing the moon
285.	Sepometer	Instrument for measuring septic matter in the air
286.	Snooperscope	Instrument for viewing infrared radiation
287.	Spectrometer	Instrument measuring wavelengths of light of a spectrum
288.	Spectrophotometer	Instrument for measuring speed of different parts of light
289.	Stalagmometer	Instrument for measuring surface tension by drops
290.	Statoscope	Instrument for measuring small changes in atmospheric pressure
291.	Stenometer	Instrument for measuring distances
292.	Stereometer	Instrument for measuring specific gravity
293.	Stereoscope	Instrument for viewing special three-dimensional photographs
294.	Stethometer	Instrument measuring chest expansion during breathing
295.	Strabismometer	Instrument measuring degree of squinting
296.	Spinthariscopes	Instrument for visually detecting alpha particles
297.	Spirograph	Instrument recording movements of breathing
298.	Stadiometer	Instrument for measuring the length of a curved line
299.	Spirometer	Instrument measuring lung capacity
300.	Stactometer	Pipette with hollow bulb for counting drops
301.	Stagmometer	Instrument for measuring number of drops in volume of liquid
302.	Strabometer	Instrument for measuring strabismus in the eyes
303.	Stroboscope	Instrument for measuring motion using flashes of light
304.	Synchroscope	Instrument for detecting whether two moving parts are synchronized
305.	Stylometer	Instrument for measuring columns
306.	Sympiesometer	Instrument for measuring pressure of a current
307.	Tachograph	Instrument for recording speed of rotation
308.	Tribometer	Instrument measuring friction
309.	Trigonometer	Instrument for solving triangles
310.	Tachometer	Instrument for measuring speed of rotation
311.	Tacheometer	Instrument for rapidly measuring survey points on a map
312.	Trocheameter	Instrument counting wheel's revolutions
313.	Tromometer	Instrument for measuring slight earthquake shocks
314.	Tropometer	Instrument measuring rotation
315.	Turbidimeter	Instrument for measuring turbidity of liquids
316.	Taseometer	Instrument for measuring stress in a structure

Sr.	Words	Definition
317.	Taximeter	Instrument for measuring fee for hired vehicle
318.	Telespectroscope	Instrument for analysing radiation omitted by distant bodies
319.	Tellurometer	Instrument using microwaves to measure distance
320.	Thermometrograph	Instrument for recording changes in temperature
321.	Thermoscope	Instrument indicating change in temperature
322.	Thoracoscope	Instrument for viewing the thorax and chest wall
323.	Tocodynamometer	Instrument for measuring uterine contractions during childbirth
324.	Tomograph	Instrument for viewing section of an object using X-rays
325.	Tonometer	Instrument measuring pitch of musical tones
326.	Topophone	Instrument to determine direction and distance of a fog-horn
327.	Torsiograph	Instrument for recording torsional vibrations on an object
328.	Transmissometer	Instrument for measuring transmission of light through a fluid
329.	Trechometer	Instrument for determining distance travelled; odometer
330.	Tenderometer	Instrument for measuring tenderness of fruits and vegetables
331.	Tensiometer	Instrument for measuring tension
332.	Thalassometer	Instrument for measuring tides
333.	Thermometer	Instrument for recording changes in temperature
334.	Telemeter	Instrument for measuring strain or distance from observer
335.	Telescope	Instrument for viewing objects at great distances
336.	Tremograph	Instrument for recording involuntary muscular motion
337.	Typholograph	Instrument to help the blind write clearly
338.	Urethroscope	Instrument for viewing the interior of the urethra
339.	Ultramicroscope	Instrument for viewing extremely small objects
340.	Udometer	Instrument for measuring rainfall
341.	Vaporimeter	Instrument for measuring vapour pressure
342.	Viscometer	Instrument for measuring viscosity
343.	Voltmeter	Instrument for measuring electrical current indirectly
344.	Variometer	Instrument for measuring magnetic declination
345.	Visometer	Instrument for measuring focal length of the eye
346.	Velocimeter	Instrument for measuring velocity
347.	Velometer	Instrument for measuring speed of air
348.	Vibrograph	Instrument for recording vibrations
349.	Vibrometer	Instrument for measuring vibrations
350.	Voltmeter	Instrument for measuring electrical potential
351.	Wattmeter	Instrument for measuring electrical power
352.	Weatherometer	Instrument for measuring weather-resisting properties of paint
353.	Wavemeter	Instrument for measuring wavelengths
354.	Xylometer	Instrument measuring specific gravity of wood
355.	Xanthometer	Instrument for measuring colour of sea or lake water
356.	Zymometer	Instrument for measuring fermentation

XIII- LITERARY WORDS

Sr.	Words	Definition
1.	Ballad	A poem or song narrating a story in short stanzas. Traditional ballads are typically of unknown authorship, having been passed on orally from one generation to the next.
2.	Couplet	Two lines of poetry that rhyme
3.	Concrete	Poetry in which the meaning or effect is conveyed partly or wholly by visual means, using patterns of words or letters and other typographical devices
4.	Elegy	This is a particular type of lyric that is written to mourn the passing of something or someone.
5.	Euphony	Sounds that are very pleasant to the ear. The opposite of cacophony
6.	Epigram	These are very short, witty poems that make a pithy pronouncement about something. Usually they are written as couplet.
7.	Epic	This is a very, very long poem that tells a story. Epic poems are narrative poems that are long enough to be in a book of their own, rather than an anthology
8.	Epitaphs	Epitaphs are poems about the dead that are written to be on tombstone; this means they are usually very short.
9.	Idyll	A short poem which depicts the rustic life of people
10.	Metonymy	This is a type of metaphor in which a reference point is substituted for the thing to which reference is actually made. The pen is mightier than the sword
11.	Metaphor	A direct comparison between two dissimilar items. She is a monster is a metaphor comparing a girl to a monster.
12.	Novel	A fictitious prose narrative of book length, typically representing character and action with some degree of realism
13.	Octave	Eight lines of poetry that have a rhyme scheme
14.	Oxymoron	An oxymoron is a pair of single word opposites placed side by side for dramatic effect. A contradiction in terms. For example, "cold fire" or "sick health" or "jumbo shrimp".
15.	Ode	This is a very serious form of the lyric; it is written about a serious topic and is very dignified, if not stately, in tone and style
16.	Paradox	A large oxymoron. An apparently contradictory statement that, despite the contradiction, has an element of truth in it. Wordsworth's "the child is the father of the man" is a paradoxical statement.
17.	Pastoral	A pastoral is a poem that is set in the countryside. It often presents an unrealistic, idealistic notion of country living: happy shepherds, lovely shepherdesses, contented flocks of sheep, sunny meadows, and gentle weather
18.	Parody	A parody is a mockery of another piece of literature; it copies the style and voice, and sometimes language of the original for comedic effect
19.	Personification	A comparison between a non-human item and a human so that the non-human item is given human characteristics.
20.	Quatrain	Four lines of poetry that have a rhyme scheme
21.	Sestet	Six lines of poetry that have a rhyme scheme
22.	Sonnet	A fourteen-line lyric written in iambic pentameter.
23.	Satire	A style of writing that has the goal of mocking or scorning an individual, an institution, or society as a whole.
24.	Simile	A comparison between two dissimilar items using "like" or "as" to make the comparison. The stars are like diamonds in the sky is a simile, comparing stars to diamonds.
